## REPORT OF HIGHWAY AGENT

---

To Board of Selectmen,  
Richmond, N. H.

Gentlemen:

I hereby submit my report for the year ending December 31, 1946.

Due to the lack of available labor and shortage of materials I regret that during the year I was unable to maintain the roads at the former standard.

All town roads were scraped at least once, rocks removed, and ditches cleaned, so that at all times the roads were safe to travel.

During the year three bridges were replaced, several culverts were relaid, and one new one installed.

All town equipment has been kept in good repair and is now in first class condition.

Money ear marked for gravel was not spent due to the impossibility of obtaining the necessary equipment.

The work of brush cutting was carried forward the past year and with continued appropriation, in due time all roadsides will be properly cleaned so that they may be maintained at much less expense in the future.

HENRY N. BALLOU,

Road Agent.

(For expenditures see Detail No. 9)

## REPORT OF CHIEF OF FIRE DEPARTMENT

---

The past year has been very fortunate for the Fire Department, in that we have had only two forest fires which were discovered before much damage had been done and also one chimney fire.

We have seven water holes now in various parts of the town. These spots were picked where we thought we would be able to get the most water and cover the largest number of buildings. We are in hopes to have more of these in other localities as soon as time and money permit.

The telephone company has not been able to install the telephone as yet due to the fact there is no line to connect to and some materials are still not available.

The department has purchased a Gorman-Rupp portable pump to be used for fires and help the other pump when needed. This was purchased with the money appropriated to purchase additional apparatus for the department.

I wish to thank the firemen, selectmen and all other townspeople for their co-operation during the past year.

Respectfully submitted,

ARTHUR E. STINSON, Chief.

Richmond, N. H.

## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the School Board and Citizens of the Richmond School District:

I herewith submit my second annual report as superintendent of schools.

### FINANCES

There has been a great increase in the cost of operating schools during the last three years. The following table indicates our total expenditures over a five-year period:

1943-1944	\$5,647 80
1944-1945	\$5,051 76
1945-1946	\$4,964 12
1946-1947	\$6,272 76 (estimate)
1947-1948	\$6,821 00 (estimate)

It should be noted that the first two of the above figures cover the operation of both the Four-Corners and North Richmond schools. When the North Richmond School was closed in the summer of 1945, the expenditures for salaries and transportation increased nearly enough to offset the savings brought about by closing one school. The district carried the following amounts of cash on hand during the years indicated below:

June 30, 1944	\$2,417 91
June 30, 1945	\$3,353 09
June 30, 1946	\$1,494 25

The presence of the cash balances reduced the assessments on the town somewhat during these years. At present, we estimate a cash balance of not over \$100.00 in June, 1947. This means that the assessment on the town for the year 1947-1948 is going to be much larger than during the recent years.

The budget for 1947-1948 calls for an expenditure of \$6,821.00. The estimated income during the coming year is \$1,162.00. This makes the total assessment on the town of \$5,659.00 for meeting school expenditures.

The assessment in March, 1946, to meet school board's expenditures for 1946-1947 was \$3,711.00. This large increase in assessment is partially due to the cash balance on hand last year and partially due to the increased cost of operation. It should be noted that teachers' salaries, transportation and high school tuition is nearly \$5,000.00 of the total expenditures.

It will be noted in the table of general statistics for 1945-1946 that the average cost per pupil per year is \$167.37 (cost of high school tuition not included). The state average cost of educating elementary school pupils was \$104.64. While our cost of operation is quite high compared with the state average, it is not out of line with the costs of operating other one-room rural schools.

### BUILDING AND EQUIPMENT

The interior of the Four-Corner School was painted last year. We now hope to be able to paint the interior of the building during the coming year. The brush which was cut near the building last year has improved the lighting.

The school is well equipped with text books and supplies. Other than reference and library materials, our needs for the school year will be relatively few.

### PERSONNEL

Mrs. Alice Read of Winchester was employed to replace Miss Viola Fenton who accepted a position at East Swanzey. Mrs. Read is a graduate of Keene Teachers College.

Miss Margaret A. Meath was employed as music instructor this year. Miss Meath is a graduate of Oberlin, class of 1946.

### TESTING PROGRAM

The Metropolitan Achievement Tests have been administered to every child in the Four-Corners School. The schools in Supervisory Union No. 25 were selected by the World Book Company to assist in the development of a new table of norms

for this particular test. The achievement records of all pupils are on file both in the office of the Superintendent of Schools and the records in the school. Every child in the school has been given an intelligence test. The intelligence quotients have all been recorded on the pupil record sheets.

## **HELP YOUR FOREST FIRE WARDEN PREVENT FIRES—IT PAYS!**

The prevention of forest fires is the most important and difficult part of the work of your forest fire warden who heads a local organization set up primarily for the security of your community's forest property. The importance and value of the work of the forest fire warden and his deputies is, perhaps, best appreciated during hazardous periods when fire danger is greatest. The public, however, looks to him at all times for speedy and economical suppression of going fires

To properly fulfill his mission, the warden needs the generous and understanding cooperation of the public at large. He attempts to secure this cooperation by the posting of caution notices, news items and by word of mouth, always carefully explaining the necessity of restrictions imposed. In the matter of giving cooperation, however, the public often fails. The record shows that an average of 7,300 acres of woodland are burned over by forest fires in New Hampshire each year. Analysis of fire causes reveal the fact that more than 98 percent of all forest fires are, consistently, the result of human carelessness and are preventable.

The careless smoker fails to properly extinguish his cigar, cigarette or pipe ashes or thoughtlessly throws them from the car window; the debris burner fails or refuses to consult the warden, as the law requires when the ground is not covered with snow, before attempting to burn; campers fail to properly extinguish their fires or frequently build fires when conditions are unfavorable.

**Remember these rules:**

1. Use ordinary common sense with fire in and near woodland.
2. Comply with requirements on the use of fire in and near woodland and when the ground is not covered with snow, secure written permission to burn from the forest fire warden.
3. Be careful when smoking in or near woodlands. Don't throw lighted material from moving vehicles.
4. Cooperate with and assist the warden and urge others to do so.
5. **HELP YOUR FOREST FIRE WARDEN PREVENT FIRES—**his efforts are only as effective as is the cooperation you give him!
